Resilience
Clear Communication Skills

AREA OF INTEREST

Website Creation.

SUMMARY

Enthusiastic and motivated Java Full Stack Developer (Fresher) with a solid foundation in object-oriented programming, web technologies, and full-stack application development. Completed academic and personal projects that demonstrate the ability to build end-to-end web applications using modern development practices.

PROJECT WORKED

RESTAURANT WEBSITE

- This project is a simple and elegant restaurant website created with HTML and CSS.
- It features a homepage showcasing the restaurant's name, logo, and a welcoming banner.
- The site includes sections like Menu, Gallery, and Contact. HTML is used for structuring the content, while CSS styles the layout with responsive design, attractive fonts, vibrant colors, and images to create an appealing and user-friendly experience. It's a great beginner project to practice frontend web development skills

E-COMMERCE WEBSITE (AMAZON CLONE)

- Developed a responsive front-end clone of the Amazon e-commerce website using HTML, CSS and Bootstrap.
- Designed a clean, user-friendly layout replicating Amazon's homepage, product listings and navigation.
- Implemented a responsive navbar with dropdown menus and a search bar for seamless user navigation.
- Used Bootstrap components like carousels, cards, and grid systems to create a mobile-first design.
- Created multiple sections including featured products, today's deals and categories.
- Applied custom CSS for fine-tuned styling and branding consistency. Integrated a footer with social media links, contact info and quick links.

PERSONAL DETAILS

Father's Name : A. Mohamed Ali
Mother's Name : M. Sharmila Banu
Date of Birth : 04-12-2003
Gender : Male
Nationality : Indian
Languages Known : Tamil, English.

DECLARATION

I hereby declare that the above given statement are true and best of my knowledge.
